revolution**

# COMPANY PROFILE

Changzhou Guangmeng Tools & Hardwares CO., LTD, established in 2005, the company is located in Jiangsu, China, with a covering area of 50000 m2. With more than 15 years of experience for manufacturing, we have been improving our products as well as our services. "Diligence, quality and sincerity" is our motto, our philosophy of work and we always strive to offer the best.

All of our equipment is certified and up to date with the latest technology, especially with laser cutting machines. With the advanced equipment, we can reach 1.2 million discs per day for the capacity of manufacturing. Meanwhile our technical team offers strong support to our customers and will always make different tests in order to make sure the final quality is excellent. Our products have passed the RoHS, PAHSs and 1509901: 2000 System certification.

Apart from the factory, we also have a branch office based in Europe to take good care of the oversea sales and communication. With the professionalism we offer, we have built solid trust with numerous customers at home and abroad, making us one of the biggest leading manufacturers for abrasives in China. Currently we have signed the strategic cooperative trade partnership with many international enterprises, which leads us to a bigger platform in the world.

### >>> Repaired Area Inspection

Inspect the surface of the atomic ash carefully. If it is lower than the normal surface or there is any pinhole that needs to be filled, it will be necessary to apply the atomic ash again and polish it until the surface is completely flat.

# ***BODY REPAIR SOLUTION***

OUR ABRASIVES ARE BUILT TO WITHSTAND THE GRINDING ON THE TOUGHEST METAL SUBSTRATES, DELIVER FINE FINISHING RESULTS AND TACKLE THE CHALLENGES THOURGHOOUT THE WHOLE PROCESSES.

SPECIAL FOR AUTOMOBILE

# STRIP DISC

FLEXIBLE, FAST AND FRICTION-FREE SANDING

### Structure:

- Grain: Silicon Carbide(Orange) / Ceramic(purple) / Zirconia(black)
- Backing: Non-Woven, Nylon Webbing

### Key Features:

- Unified grinding effect, generates less dust and small noise.
- Fast removal of paint and rust without compromising the geometry of the workpiece.
- Outstanding working performance and a prolonged service life.

### Applications:

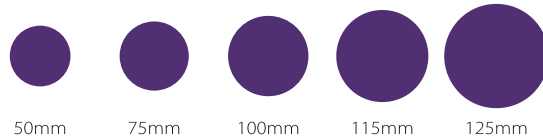

- Removal of rust, paint and flaking materials
- Surface preparation, conditioning and finishing

### TECHNICAL SPECIFICATIONS

DESCRIPTION	HOLE
150mm Strip Disc	6mm
100mm Strip Disc	6mm
100mm Strip Locking Disc	-

## CW54 WET & DRY

FLEXIBLE, FAST AND FRICTION-FREE SANDING

### Key Features:

- Flexible, suits all curved surfaces.
- Fast sanding, enhance productivity.
- Friction-free, optimal scratch pattern.
- Long lifetime, more cost effective.

### Applications:

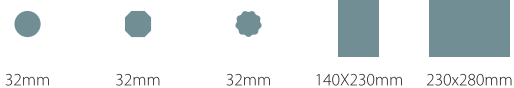

- Silicon carbide wet & dry water-proof sanding paper, ideals for achieving a consistent, smooth and refined finish.
- Made with durably resin bonded on water-proof paper, guarantees the flexibility and softness of the backing.
- 9x11 inch, great dimension that can cut into different sizes to suit for hand using or place on sanding block.
- Perfectly fits with hand or machines.

**Sandpaper, together with the hand grinding board, is a perfect match.**

In order to maximize the dust collection effect of the vacuum cleaner, we abandoned the traditional processing method and adopted the most advanced laser marking technology. After dozens attempts, we designed a special V-shaped dust suction hole, which to the greatest extent suits for the majority hand grinding boards in the market. The configuration of the hole position can retain more grinding area and reduce the possibility of dust blockage on the surface of the sandpaper.

# ALL IN ONE SOLUTION BOX

## NEW REVOLUTION DRY SANDING SYSTEM

### APPLICATIONS

#### TIME SAVING

Independent disc design, easy to take by category and improve the working efficiency.

#### ROLL DISPENSER

The box can put 3 different kinds of disc, which makes it more convenient for disc replacement.

#### SMART GUIDANCE

Suitable for different kinds of applications. Flexible and convenient.

#### PROCESS GUIDANCE

The discs are tagged in different colors according to the steps, which saves time for finding the grits.

OUR ACCESSORIES CAN HELP YOU ACHIEVE AN EASIER, CLEANER AND MORE EFFICIENT SANDING EFFECT.  
COMPATIBLE WITH OUR PROFESSIONAL POWER TOOLS, DUST VACCUUM SYSTEMS AND OUR OUTSTANDING ABRASIVES.

## GP-BK6 / GP-BK7 Black Backing Plate

- **THREAD:** M14 5/16"-24      **SIZE:** 150mm 170mm

### Applications:

- Paint layer protection, with the soft backing surface.
- Velcro backing special for hand & loop style discs.
- Gripping face securely holds the sanding discs, meanwhile easy for new disc replacement and reattachment.

## Multiple-Hole Backing Pad

- **THREAD:** 5/16"-24      **SIZE:** 125mm 150mm

### Applications:

- Multi-hole pattern offers excellent dust extraction.
- Velcro backing special for hand & loop style discs.
- Gripping face securely holds the sanding discs, meanwhile easy for new disc replacement and reattachment.
- Suits for most 6" sanding tools.

## Spot Hand Sanding Block

- **SIZE:** 30mm

### Applications:

- Ø 30mm durable hand-grip sanding block with comfortable ergonomic design.
- Soft and flexible PUR construction with hook & loop fastener.
- Ideal for spot repairs, stone chips and paint drips.
- Small footprint making it very accurate.

## GC-BK45 Dry Guide Coat

- **SIZE:** 450ml

### Applications:

- Dry Guide Coat is a dry powder used to highlight surface imperfections and sand scratches prior to finishing with abrasives. Dry Guide System is a revolutionary method for applying a guide coat to a repair area. This system offers considerable advantages over current working practices. In particular, easy to use and achieve an excellent job every time.

## Roloc Pad

- **SIZE:** 50mm 70mm

### Applications:

- Applicable to roloc sanding disc and roloc scouring disc

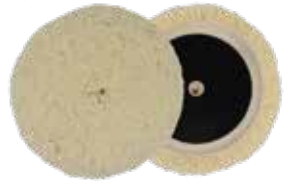

## GS-01 Single-Side Wool Pad

- **SIZE:** 180mm 200mm

### Applications:

- Single-side Wool Pad is our high performing wool compounding pad. This 100% wool product aggressively removes clear coat scratches with smooth, controlled rotary action.

## GD-02 Double-Side Wool Pad

- **SIZE:** 180mm 200mm

### Applications:

- This 100% wool product aggressively removes clearcoat scratches with smooth, controlled rotary action. Double-sided soft edge pads protect body and style lines.

## GMF-Y3 Microfibre Cloth

- **SIZE:** 40mmx40mm

### Applications:

- Microfibre Cloth is a borderless super fibre cloth, which can reduce the scratches while cleaning. This cloth has strong water absorption feature, gentle to the paints and can be reused.
